Finding mixed debris in certain lots. Management received the list today and will communicate with those owners.

Sewer Committee: Timothy Cicchese –

A few members met with Tara and WPCA to get more answers to the 200-plus questions asked, then compile information for a committee meeting, and then update the community. The thought is that it will cost 10% of the grand list value. No exact plan on grant money and they will keep everyone informed, but not a lot of information at this time. Dean and Pocono Road is separate

The committee is working on a survey and as information comes in they will update and possibly do another survey. Need to wait and see if we will get a grant. Board will approve survey.

Looking to get water map Borings were completed and we were promised results from study and maps – we didn't receive these reports or maps.

WPCA meeting is tonight committee meetings and next is December 14th

Angelo 64 SLS – the house next door sold and is now an Airbnb – Scalzo is the broker (that is the real estate side)
